HOW TO SETUP YOUR NDC PHARMACY TO TRANSMIT TO LEXON
(should take no more than a minute to setup)
ANY PROBLEMS PLEASE CALL Yolande or Mark on 01527 505425

Note: No additional software or updates are necessary, as Lexon will accept any code that you transmit from your system.

MAKE SURE YOU ARE ON NDC PHARMACY MANAGER AT THE *ORDERING TAB* BEFORE YOU START

STEPS

1. Click on magic wand
2. Click next to continue from the introduction screen
3. On select supplier screen, type in LEXON then click find
4. On the find supplier screen select Lexon and click DETAILS

5. Click on the **Communications** tab and fill in the following:
   Baud rate   19200   DataBits   7
   Parity   ODD   StopBits   1
   Protocol   Link (AAH)

   Leave all others blank

   Leave supplier communication screen by clicking APPLY, then CLOSE

6. You should now be back at 'Find Supplier' screen.
7. Click on **OK** which will take you to SELECT SUPPLIER SCREEN
8. Click on **NEXT** and enter your account number in the "Enter Account" screen
9. Click on **NEXT** to "Select Transmission Type" screen to 'transmit directly to supplier computer'
10. Click on **NEXT** to enter transmission number – **01527810780**
11. Click on **NEXT** to "When to send" – select "When I decide"
12. Click on **NEXT** to Order Type – select the default – "Either"
13. Click on **NEXT** to FINISHED SCREEN. Note, if the Lexon direct is in red, overtype the red with 'LEXON DIRECT' then finish! You will need to restart NDC

Additional Notes:

1. LEXON SUPPORT ALL CODES ON YOUR SYSTEM
2. When you get a "Not On File" reply from your order, it means we do not have the code on our system. It could be we do not stock the item, or we have not entered the code onto our system yet.
